

ABDUL YUNUS

Full Stack Development | Mobile App Development | Quantum Computing

☎ +91 8639838047 ✉ yunusabdul274@gmail.com 🌐 Yunusr714 📄 Abdul Yunus 🚀 Yunus Abdul

Professional Summary

Aspiring Software Engineer with practical experience in developing full-stack web applications, participating in hackathons, and working in collaborative development environments. Strong interest in software engineering, Artificial Intelligence, and Quantum Computing, with a focus on solving real-world problems through technology.

Technical Skills

Languages: Python, JavaScript, TypeScript, C, Java(Basics), SQL

Frontend: React.js, React Native, HTML5, CSS3, Tailwind CSS, Bootstrap

Backend: Node.js, Express.js, Flask, PHP, REST APIs

Databases & Tools: MongoDB, MySQL, Git, Postman, Figma

Quantum Computing & AI: Qiskit, RAG, GNN

Experience

MERN Stack Developer Intern (2-Months)

IIT Ropar (Virtual)

- Developed a MERN-based Notes Platform enabling students to create notes, draw flowcharts, and upload images.
- Collaborated with a cross-functional team of students from different states on case-study based projects, strengthening problem-solving, communication, and teamwork skills.
- Participated in regular technical quizzes, code reviews, and viva evaluations, enhancing understanding of full-stack development concepts and software engineering practices.

Frontend Developer Intern (1-Month)

Krify Software Technologies, Kakinada

- Developed responsive web applications and a Scientific Calculator using HTML, CSS, JavaScript, and Bootstrap.
- Recreated modern website interfaces and collaborated on team-based frontend projects, improving UI implementation, layout design, and responsive development skills.

Projects

Stepcone 2025: College Fest Website

2024

Tech Stack: React.js, PHP, MySQL, Razorpay

- Contribution: Worked as a Full Stack Developer to build the event registration platform for both internal and external participants, integrating Razorpay payments, email confirmations, and dashboards for students and administrators.
- Outcome: Successfully handled 3,800+ registrations, simplified event management, and registration tracking and reporting.

QubitTracer: Quantum State Visualizer (Hackathon Winner – AQVH 2025)

2025

Tech Stack: React.js, React Native, Qiskit, Flask

- Contribution: Worked as a Full Stack Developer in a team to build an AI-assisted quantum computing platform featuring quantum circuit simulation, state visualization, and educational tools for simplifying quantum computing concepts.
- Outcome: Enabled students and researchers to design and test quantum algorithms in a simulated environment, while providing AI-powered explanations of results for improved learning and experimentation.

Education

B.Tech in Computer Science and Engineering

2023 – 2027

GMR Institute of Technology (Deemed to be University), Rajam

CGPA: 8.5/10

Relevant Coursework: Data Structures & Algorithms, DBMS, Computer Networks, and System Design, applied in building full-stack applications, REST APIs, database-driven systems, and scalable software solutions.

Intermediate (MPC)

2021 – 2023

IIIT RK Valley, Idupulapaya

CGPA: 8.9/10

Achievements

- Winner, Amaravati Quantum Valley Hackathon (AQVH 2025)
- Winner, QC² National Quantum Hackathon, SRM University-AP
- Winner, Quantum Kurukshetra, Stepcone 2026
- Winner, WebOtsav, Stepcone 2024
- Runner-Up, GenAI Competition, NXTWave

Certifications

- IIT Ropar – MERN Stack Development Internship Certificate
- NPTEL – Quantum Computing & Joy of Computing Using Python
- Coursera – Introduction to Generative AI
- Infosys Springboard – Python Programming
- Udemy – Frontend Web Development
